Subject: Amended Notice, ML 50150

CC: Susan White

To Whom It May Concern:

The Trust Lands Administration recently received an amended notice of intent from Red Leaf Resources to conduct exploration upon lands relevant to Oil Shale lease #ML 50150. The amended notice was postmark dated March 18, 2008 as received by the Trust Lands Administration. I have review the amended notice and I find no substantive changes of concern to the Trust Lands Administration. Red Leaf Resources may proceed in accordance with said amended notice provided that the Lessee has met all permitting requirements of the Division of Oil Gas & Mining.
